2009 Onsite Wastewater Educational Conference

The 2009 Conference is going to be held at the Radisson Woodlands Hotel in Flagstaff, Arizona again this year from June 17 through June 19, 2009. There will be a NAWT Recertification course available on June 16, 2009. The classroom lectures will be at the Radisson on Wednesday afternoon, all day Thursday, and Friday morning. Friday lunch and the hands-on portion of the conference will be at the NAU Onsite Wastewater Demonstration Site in the afternoon.

One of the new features of the 2009 Conference will be timely sessions on more effective business practices, customer contracts and how to avoid financial and liability traps. The Conference Committee has worked hard to offer an exciting educational opportunity. This year's courses include contracts and liens; a session on some of the less than clear rules-what do they mean; a basic conventional design class; a roundtable discussion about control panels; grey water; and designing for difficult dispersal areas. At the NAU Demonstration site there will be the opportunity to get hands-on with topics discussed in class such as actually working with some control panels; system maintenance and inspection; wastewater dispersal; use of a camera in the trenches.

Members are encouraged to do a bit of networking and self promotion- bring your business promotional materials and there will be space available for attendees to pick it up.

The exhibit hall is sold out with prominent suppliers in the wastewater field. There is still space available outdoors for larger displays (septic tanks, rolling stock, etc) and in the hall for small exhibits.

The BBQ dinner will highlight the backhoe talents of attendees in the first ever AzOWRA Roe-D-Hoe. Come, have a great dinner then get into a machine provided by our sponsor, Flagstaff Equipment and show everyone how it is really done.
