

During this time of concern to our own health we know that many people are probably worried about their pet's health as well. The American Veterinary Medical Association (AVMA) has put together a number of resources for pet owners in reference to Covid-19. Please see the link below for more facts.

~~~

At Adobe Animal Hospital we strive to keep cleanliness a top priority and disinfection of exam tables, scales, and medical instruments between patients is our standard practice. Due to the current situation in health and safety, we have implemented additional disinfection of high risk areas to reduce the risk to our clients and team. If you are experiencing flu-like symptoms or have been exposed to Covid-19 we do ask that you please call us and reschedule your appointment for the safety of our clients and staff.

We are committed to continuing to provide the same level of care for your pets as always. As we learn more from the current situation we will keep you informed on any changes to our hours or safety of your pets. In the meantime, we will keep our current business hours to serve the needs of our clients. Please remember to stock up on you pets food and medications as needed.
